

NBT (Natural Building Technologies Ltd) is a technical sales and product development business established to bring a new generation of building materials and design to the mainstream market. It is based upon cutting edge technical expertise, high quality products and cost effective commercial practice.

## About NBT

NBT is the leading company in the UK and Ireland involved in the sale and promotion of this new approach to building. NBT was founded in 1999 and employs many specialist technical experts and leading building consultants. On the commercial side NBT has many years of experience in marketing and delivering a wide range of building material to the mainstream construction market. NBT backs up all its products and systems with top quality technical and sales support. NBT distributes throughout the UK and Ireland, through both specialist and general merchants.

*BaunitBayosan lime renders and plasters used exclusively on the new Reichstag building by Sir Norman Foster*

# Introduction

Since 1902 BaunitBayosan has been at the forefront of render technology using pure natural materials such as lime and clay to provide high performance building finishes and a healthier living environment.

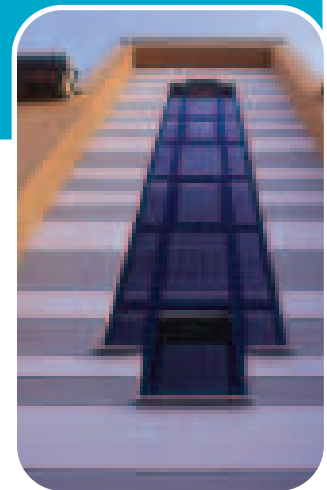

BaunitBayosan are recognised throughout Germany and Eastern Europe as the leading manufacturer of environmentally friendly render and plaster systems for both new build and also historic renovation and render refurbishment. Recently introduced is the 'Natur Line' range of systems designed to meet all environmental criteria for building products.

Natural products have been used for centuries to provide robust, weather resistant, breathable constructions that last. Now with 21st century technology BaunitBayosan products are continually developed and analysed at our laboratories and are independently tested to achieve ISO 9001 and ISO 140001 and are CE marked to meet all worldwide quality standards. Products are available for both internal and external use in a variety of colours and textures to suit the designers needs.

**BaunitBayosan are now one of the Baunit Group of companies making it one of the largest building manufacturers in Europe under the name BaunitBayosan.**

- Technologically advanced
- Ecologically sound
- Healthy
- User friendly
- Weather resistant
- Breathable

- Cost effective

DISTRIBUTED SOLELY BY  
NATURAL BUILDING TECHNOLOGIES

## Support:

NBT and its distributors run seminars and training days on NBT products and the science behind them. For details of the current seminar programme or to arrange a seminar please contact the NBT office.

NBT has a training programme specifically for plasterers. Trained applicators can go on an approved list of subcontractors which is available to clients and contractors where NBT products are specified.

NBT gives full technical and application support by phone and email. Site support and product training are also available by arrangement.
